

Join us at Next Century Cities' second annual

# Opportunities for Bipartisan Tech Policy 2020

January 23, 2020 from 9:00 am to 4:00 pm

25 Massachusetts Avenue NW, Suite 900, Washington, DC

## About this Event

Elected officials, policymakers, advocates, and other thought leaders from across the country will gather to discuss some of the most significant technology and telecommunications policy issues of our time. We will facilitate challenging conversations, find common ground, and open up opportunities to collaborate.

Sponsorship resources will ensure a powerful gathering. It will also support Next Century Cities' work to ensure that technology and telecommunications policy issues are a top priority for federal policymakers and local leaders that help effectuate their plans. Your investment through sponsorship will also support NCC's New Century Fellowship program, Regional and Community Policy forums, and empowering local communities advocate for digital equity.

**Please contact Abigail Goliber at  
[abigail@nextcenturycities.org](mailto:abigail@nextcenturycities.org) to become a sponsor.**
