What three (3) digital equity issues do you think are most critical at this point.

- 22 **Broadband access**
- 19 Universal access
- 18 Broadband affordability
- 11 Access to secure and reliable digital US Census and voting procedures
- 7 Fixing or solving the homework gap
- 6 Increasing tele-health security and capacity
- 3 Increasing competition among broadband providers

---

86 Responses

COVID-19 has made it clear that the internet is essential. What issues would most inspire your community to join a national campaign for digital equity? Pick up to 3.

- 37 **Broadband affordability**
- 34 **Digital access to education**
- 25 Installation of world-class, high-speed networks, for everyone
- 24 Digital access to work/employment
- 18 Community-owned networks
- 12 Secure and resilient telehealth networks

---
